## **DETAILED ACTION**

The following is a response to the amendment filed on November 22, 2005 which has been entered.

### ***Response to Amendment***

Claims 1-14, 21, 22, 24, 27-32 and 34 are pending in the application. Claims 15-20, 23, 25, 26 and 33 have been cancelled.

-The objection to claims 21-34 has been withdrawn due to applicant amending claim 21 into an independent claim and correcting antecedent basis of a limitation in claim 34.

-The 102(e) and 103(a) rejection of claims 1-4, 5-7, 12-14, 21, 22, 25-29, 30 and 34 has been withdrawn due to applicant amending claims 1 and 21 over the prior art of record.

### ***Allowable Subject Matter***

Claims 1-14, 21, 22, 24, 27-32 and 34 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claim 1) a differential assembly having a pair of planetary gear trains each having a holder supported on a pair of axles and a common bull gear having a hole for engaging a projection formed on each of the holders which is inserted into the hole and in combination with all the remaining limitations of claim 1.

-(as to claim 21) a differential assembly having helical planetary gears wherein each helical gear is axially moveable for frictionally abutting against another when

differential torque is generated between the axles and in combination with all the remaining limitations of claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
